

We “**L’Obel Solar Power System**” at a glance and great greetings of the day!!!.

At L’Obel, our mission is to "utilise abundant solar energy to generate electric power, for industrial, commercial and residential use, through Photovoltaic Cells in cost effective manner". Started by technocrats with aim of aiding the world environment, L’Obel Solar is into design, integration, set up & maintenance of Photovoltaic Power Systems, as shown below.

The L’Obel Products are:

- 1) Power Harmonised Solar Back Up / Standard System – 1 kWp/2kWp/up to 5 kWp Benchmarked systems designed for Industrial, Office and Residential use.
- 2) Industrial Solar Power Packs [Grid Tied] – 5 kWp/10 kWp/up to 100 kWp systems for Industry to save power and address CSR.
- 3) Solar Water Pumping System - Water pumping solutions for Rural & Urban use.
- 4) Solar LED Lighting Solution– Conventional lighting powered through Solar.
- 5) Consultancy, EPC & EPP – Support for 1 MW / 5 MW power producers.
- 6) All types of LED fixtures and it’s controller for solar street lighting (AC/DC).
- 7) Solar base distilled water plant.
- 8) Solar dryer plant.
- 9) Solar high power LED Street lights, SPV Modules, Solar Batteries, and Inverter etc.
- 10) Solar base security and surveillance solution (CCTV Camera).
- 11) Turnkey projects of Solar Power Generation System.

L’Obel Solar Advantages:

- The only company providing CFA - Subsidy in Gujarat
- One of pioneer in installing Solar Power Packs with thin film modules in Gujarat
- Indian made thin films with better performance in cloudy weather.
- Stock available in Vadodara-390020, Gujarat
- Technical experts
- Numbers of installations all over Gujarat
