Solar Power System

PROMISE FOR CONTINUOUS **POWER...**

## WHO WE ARE

We are young group of engineers and highly interested in Renewable Sources of Power Generation. As you Know the Electricity is big issue of world.

L'Obel Solar Power System was born out of compassion for green and clean environment and the zeal to find solutions for power crisis in the India for an overall development of rural community too.

The demand for energy is rising with the rapidly increasing Indian population. Moreover, most of the rural belts of India have inadequate, minimal or no electricity, which is a vital ingredient in the development of any community.

We are focusing on solar energy, one of the best options in green solar renewable energy, to provide.

## WORK STRATEGY

L'obel Solar Power System is pooled with resources of technical knowledge coupled with industrial expertise. The services are tailored to meet the unique needs of clients based on rich experience.

We encourage teams to enhance the interaction with clients for better understanding of client challenges, time lines and work towards the goal without compromising quality standards. Every team is equipped with the project management and customer service skills supported with the dedicated acquaintance towards realizing the project.

We maintain good relationships and tie up with professionals from industry, governments along with the subject experts to bring in latest solutions which make real difference in addressing the issues.

## MISSION & VISION

1

To provide the world class renewable energy solutions, service, technology and contribute to the sustainability of our planet.

2

To be the first choice PV & thermal product supplier for all clients locally & abroad and to be widely recognized for our high-quality products, services & contribution to a sustainable life.

3

Our focus is to continuously improve our efficiency, quality and technology. To fulfill this goal and make a bridge between us we are also collaborating with experts in engineering, operations.

## COMPANY PROFILE

We are leading professional services company in india. It is actively involved in providing the techno-commercial services in the energy sector. Working in close association with the clients, projects are realized from the concept to commissioning.

With its continuous effort towards excellence and assisted but highly proficient team L'obel become pioneer in providing consultancy services in the areas of renewable energy, energy efficiency and clean development mechanism.

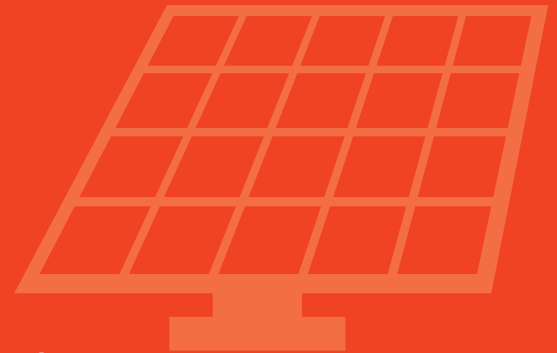

**POWERING  
YOUR LIFE WITH  
CLEAN & AFFORDABLE ENERGY.**

**PRODUCTS**

## **PV TECHNOLOGY**

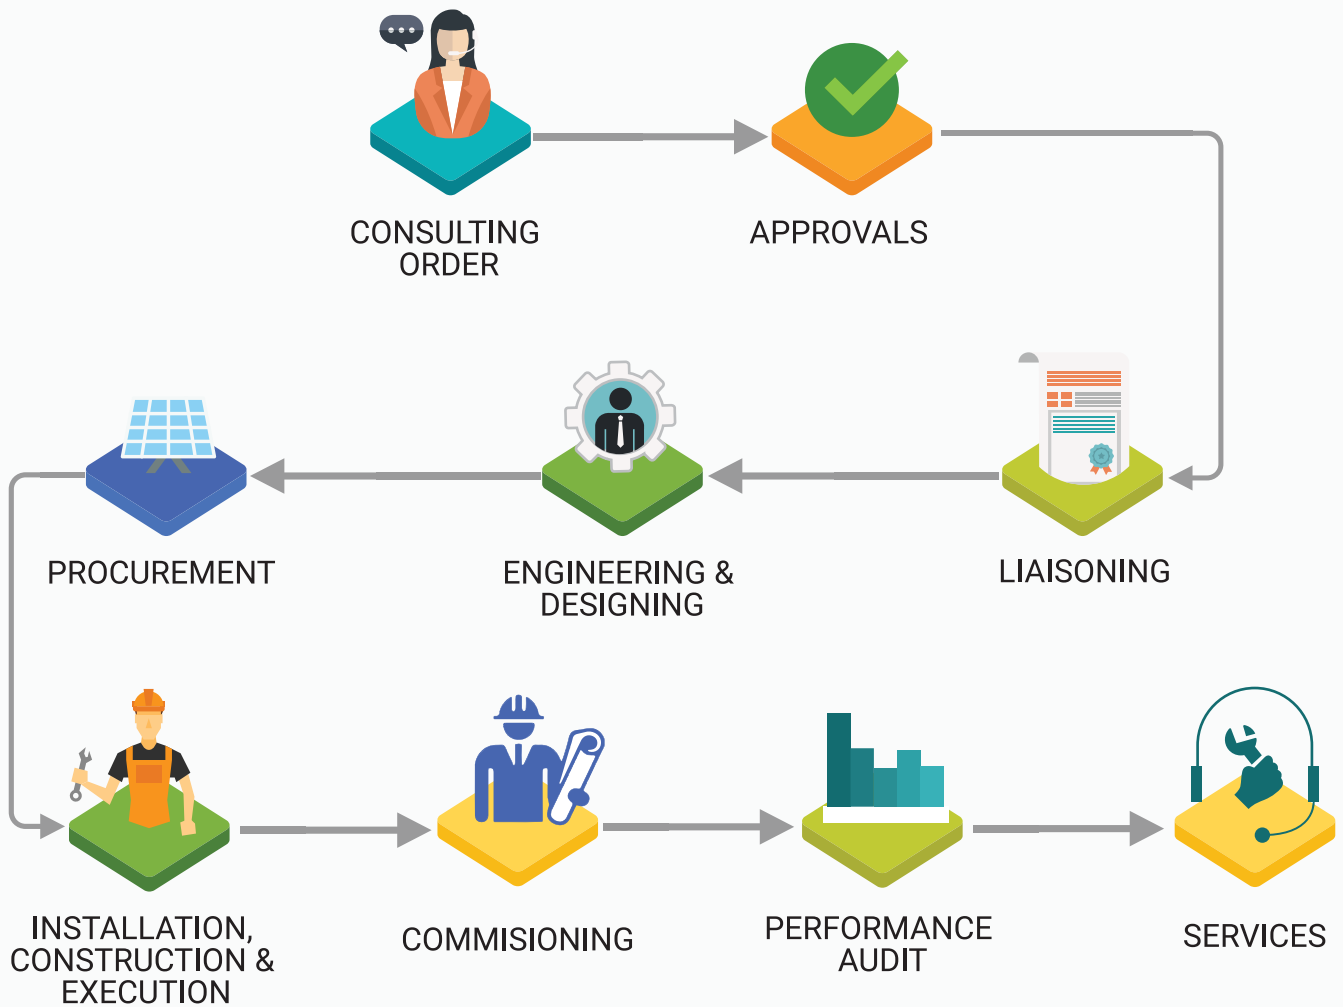

- > Solar Power Plant EPC Service
- > Solar LED Street Light
- > Solar MW Projects & Solar Farms
- > Solar Water Pumping System
- > Solar Power Back-up System
- > Industrial Captive Solar Power Plant
- > Solar Power Pack (Commercial & Industrial)
- > Solar Integrated System for Telecom & Railway Applications

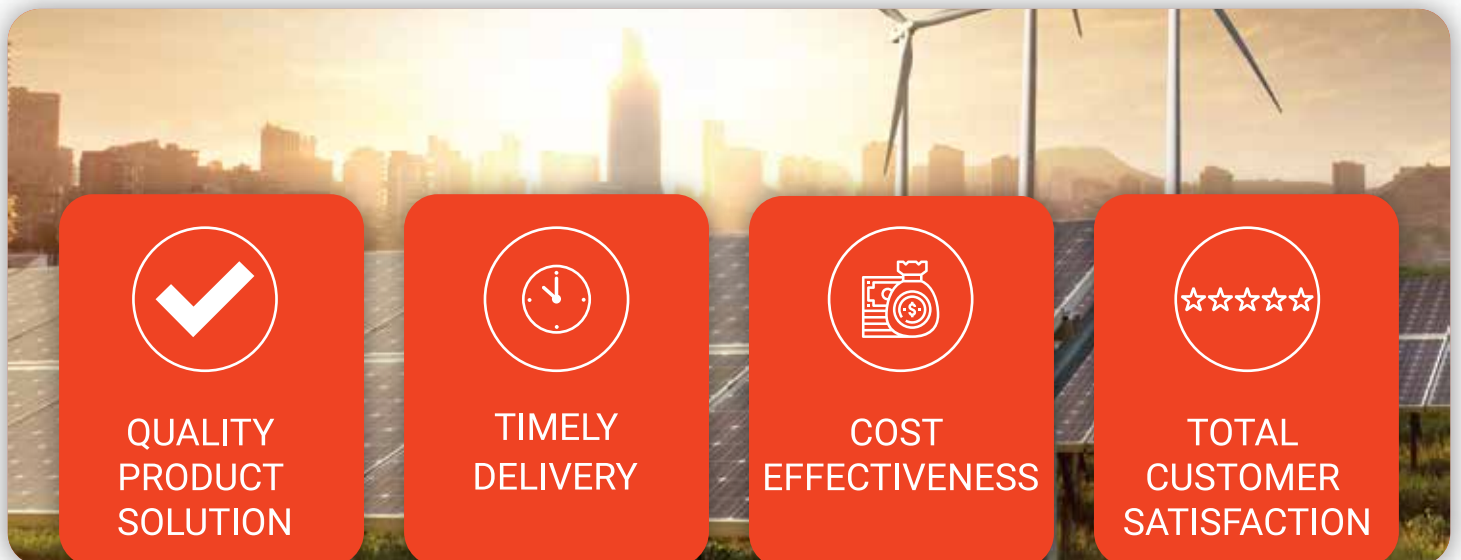

## **THERMAL TECHNOLOGY**

- Solar Water Heating System <  
(Industrial & Domestic)
- Solar Thermal Power Plant <
- Solar Air Conditioning <
- Solar Heat Pump <
- Solar Dryer <
